

# Project DAFT

## Delivery Accuracy

### Fundamentals & Techniques

#### 2022

#### Preserve & Enrich

1. Customer Experience
2. DA Experience
3. Accuracy + Speed
4. Groove/Flow (less interpretation)
5. Keep Route Sizes Manageable! 😊

# TOP 3 primary focuses, without fail

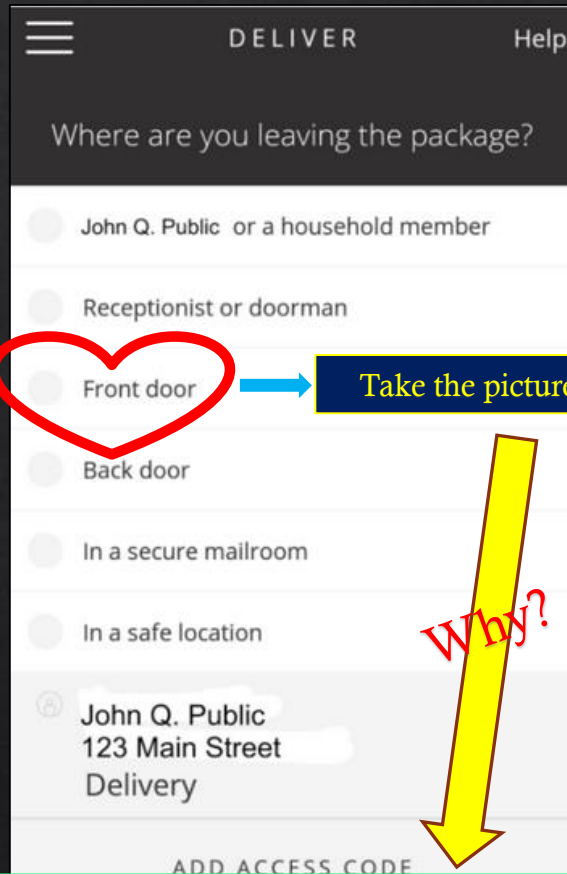

## 1<sup>st</sup> Priority: Customer Notes

1: Do **NOT** Ignore/Deviate  
Contact Customer if conflicting

## 2<sup>nd</sup> & 3<sup>rd</sup> Priorities: D2D & POD

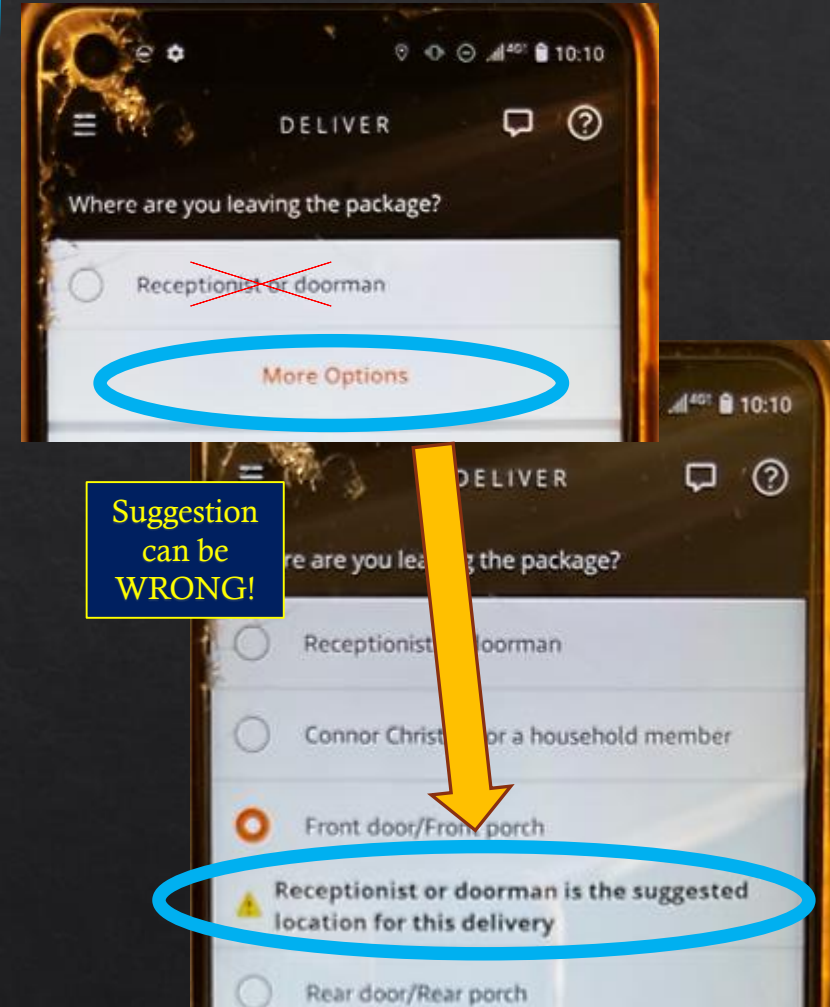

2: No Customer notes? Door to Door  
3: Picture for all unattended deliveries

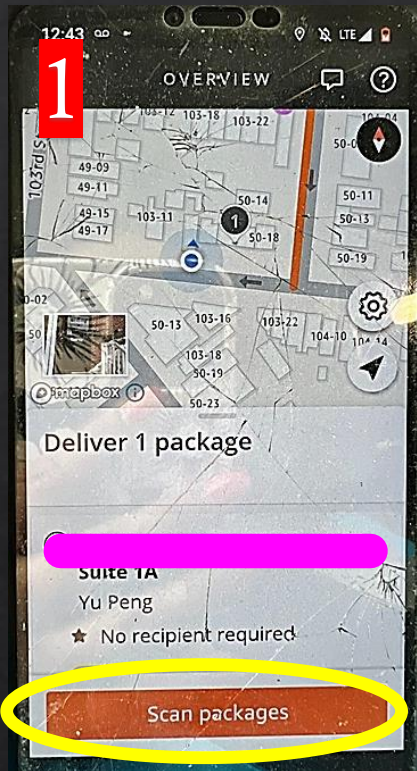

If you do **NOT** hand to a person, **Pictures MUST be taken** of **each customer order** to identify delivery location!

## IGNORE "Suggested"

Learned from DA's, **NOT** customer

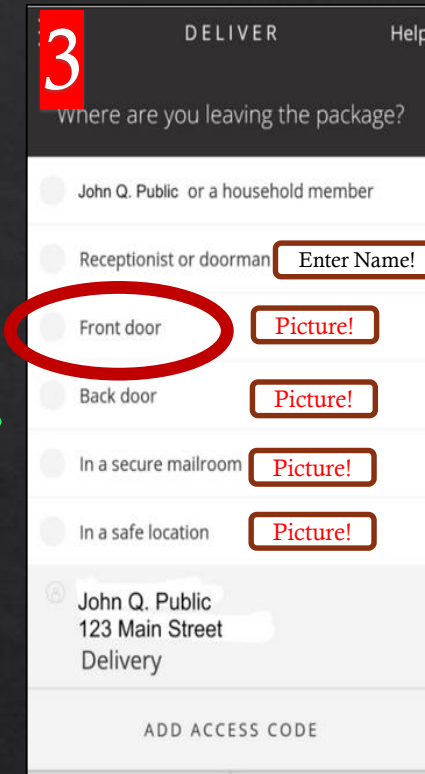

# 5 Separate Phases of Delivering on the App

Scan Packages

Select One Order at a Time, Do not "Select all"

Door to door! Select Delivery Method

Picture on Demand

Swipe to Finish At the door!

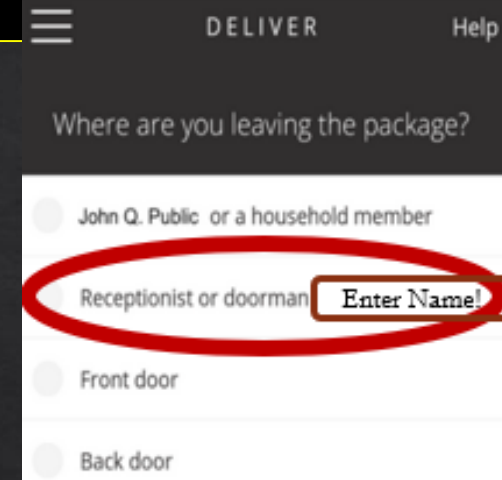

Notifies the Customer!  
Updates GEOPIN!

**Swipe to finish** at the door to lock in the physical delivery location!  
DAs must represent the package correctly on the FlexApp: Delivery Method, Name, Picture! For the customer!

# Group Stops “Select all” – deactivates Picture!! When to use?

**A:** Use **ONLY** When Selecting “**Receptionist or Doorman**”  
When you hand it to someone!!

**A:** **Select Customer orders individually**  
when we do **NOT** hand it to someone!  
“**Unattended**”!  
Examples: on ground, shelf, bench,  
chair, mail area

These are unattended deliveries, and **HIGH** risk,  
must have picture. Do **NOT** “Select All”

# Accurate "Delivery" in FlexApp. This is....

Do NOT "Select All"

Pictures for all deliveries

Unattended Deliveries

Delivered to a Safe Location

Do NOT "Select All"

Pictures for all deliveries

Delivered to a Front Door

Do NOT "Select All"

Pictures for all deliveries

Delivered to a Secured Mailroom

Do NOT "Select All"

Attended Deliveries

Delivered to a Household Member

"Select All"  
Ask/Enter their NAME

Delivered to a Doorman

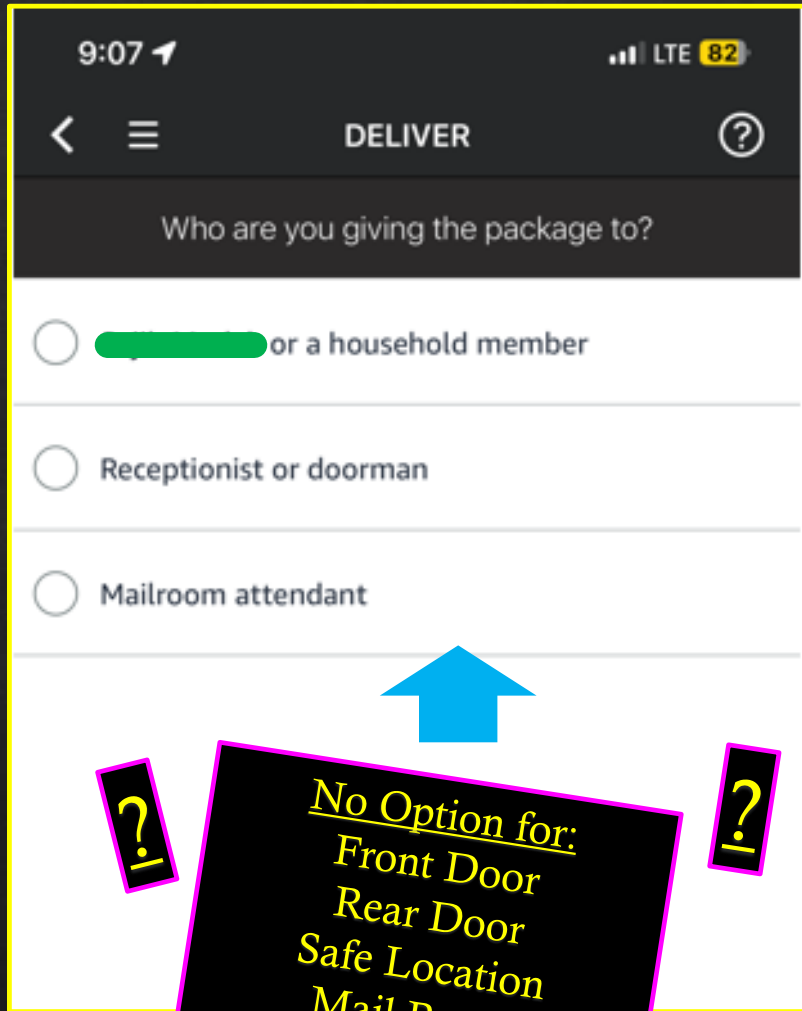

"Select All"  
Ask/Enter their NAME

Delivered to a Receptionist

The delivery method & picture/name helps customers find they package! Our Promise!

# When Customers do NOT want packages left unattended!

9:07 ← 📶 LTE 82

< ☰ DELIVER ?

Who are you giving the package to?

██████████ or a household member

---

Receptionist or doorman

---

Mailroom attendant

↑

**?**

No Option for:  
Front Door  
Rear Door  
Safe Location  
Mail Room

**?**

Customers are **BLOCKING** unattended deliveries.

**If you cannot physically hand it to someone:**

**DO:**

1. Contact the customer
2. Reattempt at end of route
3. RTS the package

**DON'Ts:**

1. Do NOT leave packages unattended (TIER INFRACTIONS!)

# Picture On Delivery – When/why do we take a Picture?

OR

?

No picture of people required!

OR

?

Yes!

Q: Why do we take one picture per customer order?

A:

1. Provide **proof** of a successful delivery!
2. Customers **immediately see the picture** upon delivery!
3. The customer knows exactly **where** their packages are!

All unattended packages, one picture per customer order!!!

No Leaving Tote Bags!

# When to mark packages “Delivered” & “Swipe to Finish”?

In the Van?

Or!

What Delivery Method was chosen?

What picture was taken?

In our hands?

No! ☹️  
It is **NOT**  
Delivered **YET!**

Customer can  
already claim

**DNR!**

Delivered to doorstep!

Safe Location!?

Or...

Delivered to Household Member!

Yes! 😊  
No longer  
in our  
possession!

# Safe Location vs Not Safe Location

“Thank you for Securing my package!!”

Not in plain sight of the street! Perfect!

Inside the lockers!

“I Never Received My Package” ... Not a Safe Location!

Easy theft

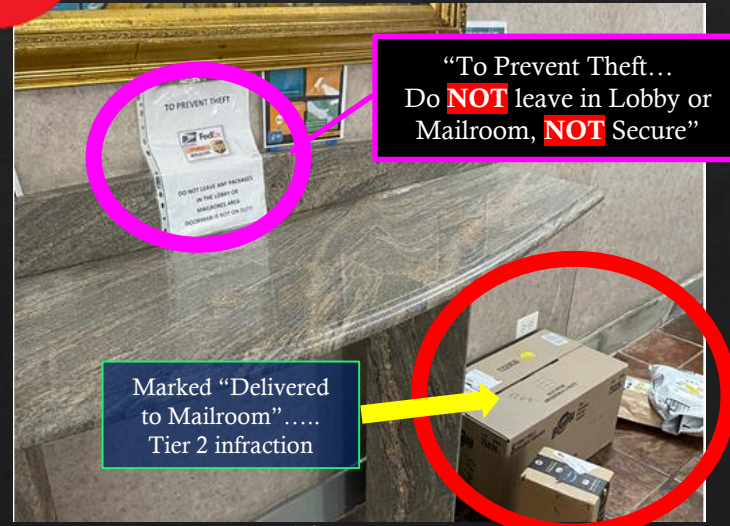

#1 DNR address at ZYO!

Marked “Delivered to Receptionist” Name: “Jill” ... Tier 2 infraction

Marked “Delivered to Safe Location” ... Tier 2 infraction

“To Prevent Theft... Do NOT leave in Lobby or Mailroom. NOT Secure”

Marked “Delivered to Mailroom” ..... Tier 2 infraction

The Customer IMMEDIATELY SEES the Picture on Delivery!

This **NOT** customer promise!

**Virtual/Physical Match!**

**Not another safe location!**

**NO, Its NOT safe!**

**Not a mail room!**

**Unsecured lobby!**

Customer Note  
Front door receive  
Call Dial code for Apt. 3B  
Please deliver the package on the front doorstep of apt. 3B and ring bell when leaving package. There have been several thefts in the building. DO NOT leave in lobby. Call

**Not a Receptionist!**

**Don't have one!**

**No it wasn't!**

**Not a Household Member!**

**5 Driver did not follow customer instructions**

Overview | Communication | Information | Event Management | Audit Trail

Customer Account ID: [REDACTED]  
 Customer Name: [REDACTED]  
 Issue Date: 11/24/21  
 Contact ID: [REDACTED]  
 Tracking ID or Order ID: [REDACTED]

Customer Email Text/Summary of issue:

Dear Mr. Jassy,

Over the last few years I have had delivery problems with Amazon orders. I have made numerous complaints, starting at the customer service level. These complaints have been completely ignored.

I live in an apartment building with no doorman and theft problems. I have left delivery instructions that specify that packages are to be delivered to my apartment and not left like a pile of garbage in the lobby, instructions which have been updated by Amazon personnel, to no avail.

Deliveries are constantly being dumped in the lobby. Recently I said to an Amazon delivery person that packages do not belong in the lobby. He replied, "I know" and walked out.

Delivery confirmations have stated "left in mailroom" when there is no mailroom. Numerous times the confirmations lie about the delivery status.

I am writing now because today was the straw that broke the camel's back.

A delivery person buzzed my intercom and said "Amazon Delivery" I said OK bring it up. After 10 minutes of waiting, my wife went downstairs and found it dumped in the lobby. What makes this even worse is when I went online, It said "package was handed directly to a resident". A BLATANT LIE.

My wife and I are disabled seniors and this treatment is intolerable. Please rectify this situation.  
 Thank You

Sincerely  
 [REDACTED]

**Customer Complaints: "Where are my packages?" .... "Where's my picture?"**

# Even in Package Rooms, Take Pictures! **NO "Select All"**

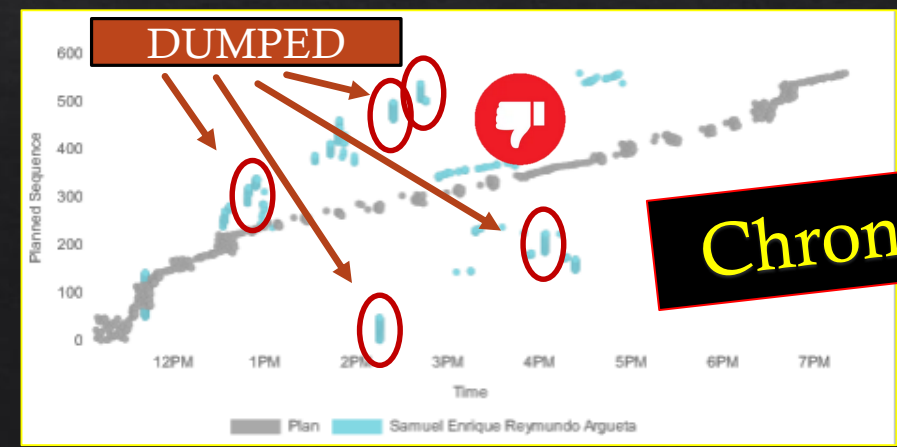

**Where are my packages!!**

**No Picture!**

**No Proof!**

**Defects! ☹️**

1. (ScoreCard) Tier 2 Infraction – Package mishandling
2. (ScoreCard) Zero DAR – excessive DNR
3. (ScoreCard) Negative Customer Feedback – where's package?
4. Failure in Customer Promise – ☹️
5. No POD – no proof, no ability to dispute
6. Delivered out of planned location – Even at address? (dispute)
7. Chronic Behavior – Driver has 5<sup>th</sup> highest DNR for site
8. Driver finished 3 hours early! – no excuse to cut corners

**TOP reasons for elevated DNR and zero DAR for sites. Do not cut corners!**

# When is “Help Yourself!” an Acceptable Delivery method? Never!

Reddit Review

Posted by [redacted] years ago  
11 When it says 'do not leave unattended in the notes,' it means 'don't do this.'

This is NOT a mail room

This is an unsecured lobby  
& not a safe location

### Customer Note

Front door receive  
Call::Dial code for Apt. 3B  
Please deliver the package on the front doorstep of apt. 3B and ring bell when leaving package. There have been several thefts in the building. DO NOT leave in lobby. Call

Greatest Theft Risk!!

No Difference!

“Package dumping” is never an acceptable delivery!

Follow Customer notes, if none, go door to door, take pictures! Standard Work!

# Protect Manageable Route Size! 😊

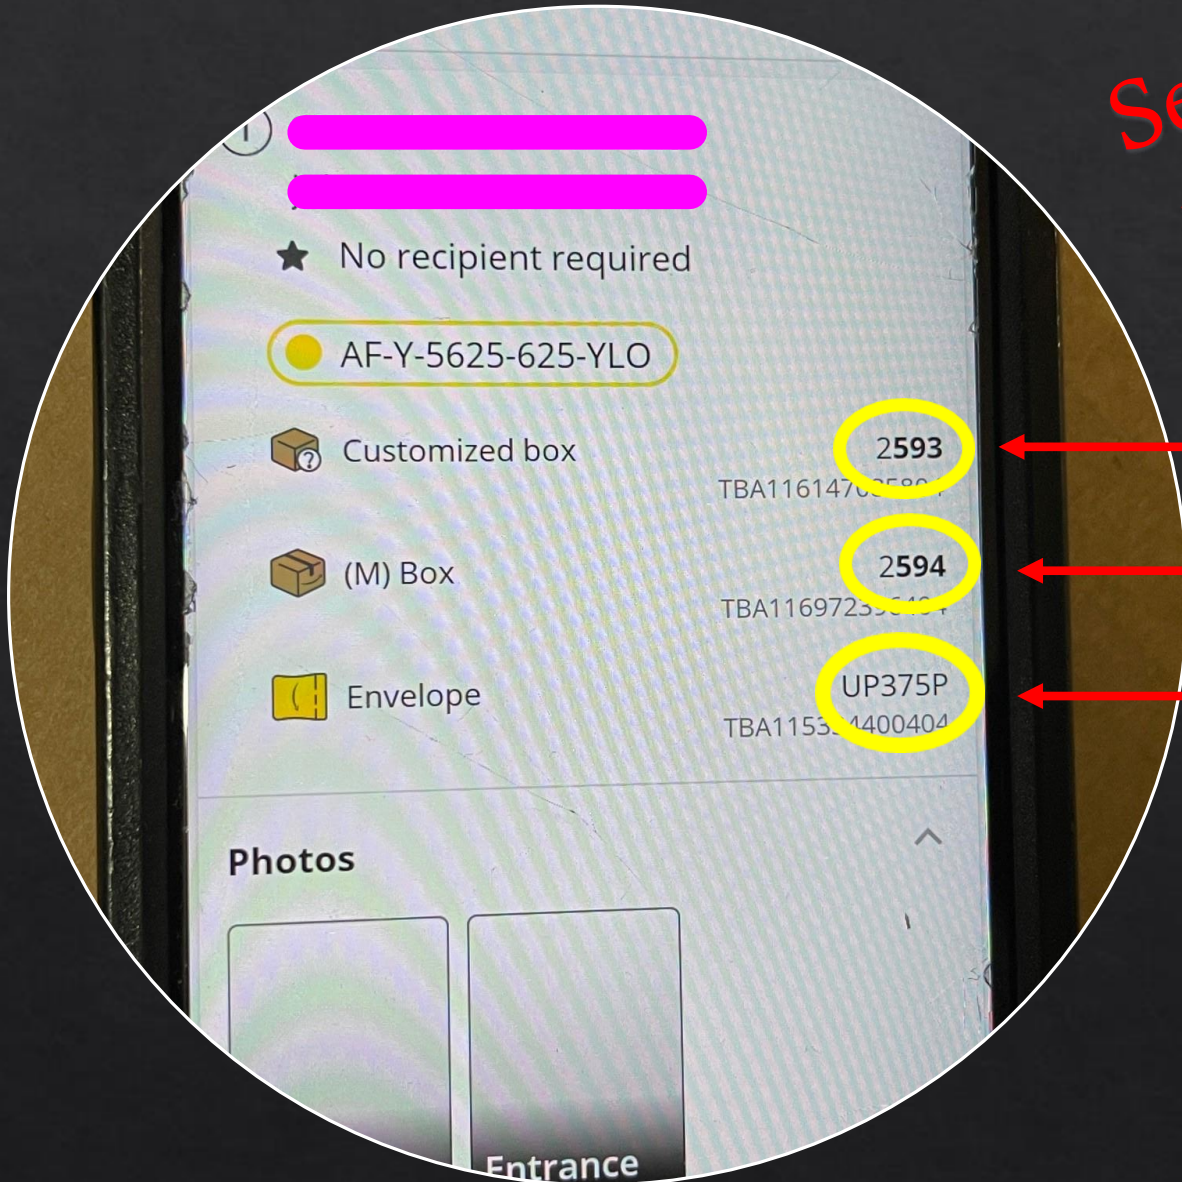

1. Door to door delivery, above
  1. 1<sup>st</sup> delivery @9:15a
  2. Last delivery @ 9:33a
  3. Total time = 20 min
  4. Total delivered = 10 TBAs
2. Each TBA has a “service time” = how “long” it takes to deliver door to door (1 TBA = ~2min each)
3. This ungrouped stop is routed for 20 minutes

1. Door to door delivery, above
  1. All TBAs delivered @9:15a
  2. Total time = 2 min
  3. Total delivered = 10 TBAs
2. According to the system, this “group” stop took 2 minutes, not planned 20 minutes
3. Routing will “learn” only 2 minutes are required, and ADD 18 MORE minutes of work! Bigger, unmanageable routes!
4. →→Out of Drive Time....More Dumping!

# Driver Assist Code (unique)

Search bags with ease!

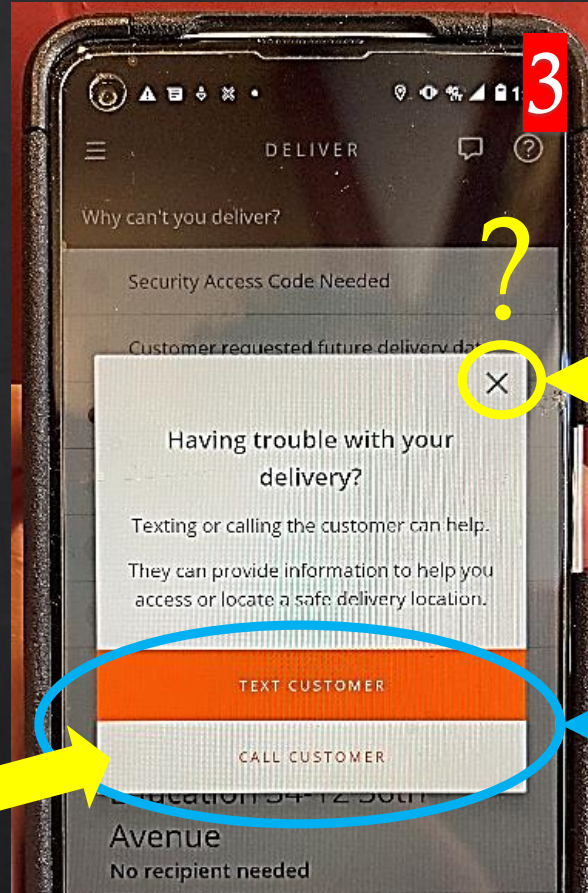

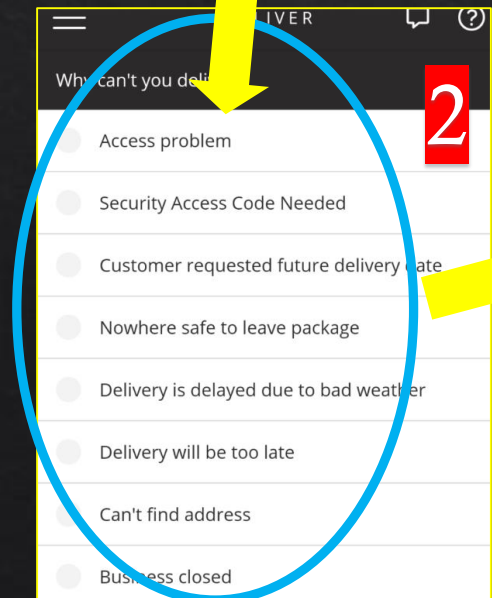

3x Packages w/ Yellow SAL Label

DA FlexAPP view at a stop, 3x Packages

# Contact Compliance – After 1<sup>st</sup> Delivery Attempt

**Q:** When may I close this screen?

**A:** NEVER! Call, Text, Call!

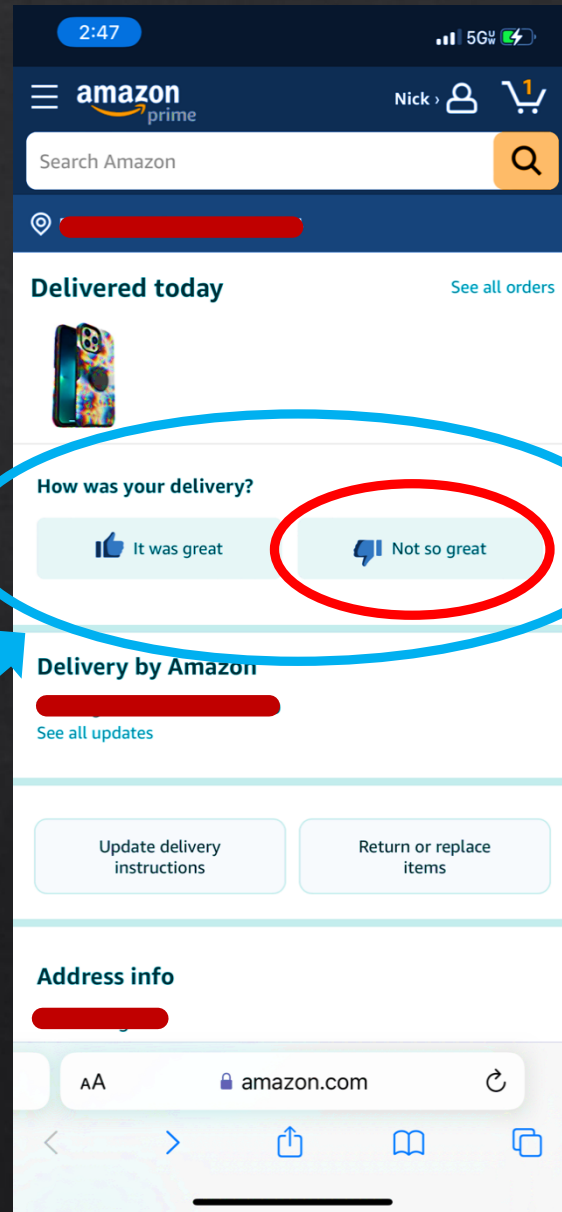

**Q:** When should we Re-Attempt?

**A:** Just prior to RTS....1pm very different than 6pm!

# Customer Feedback? - How would **YOU** rate each delivery?

Meet the “customer delivery notification”!

Customers are Immediately Prompted to Rate the Experience!

We're sorry there was an issue with your delivery.  
Please tell us what went wrong:

- Delivery was late
- Delivered to wrong address Behavior!
- Driver did not follow my delivery instructions 1st priority
- I never received the delivery Behavior!
- I received the wrong item
- Item is damaged
- Driver mishandled delivery Behavior!
- Driver was unprofessional Behavior!

Submit

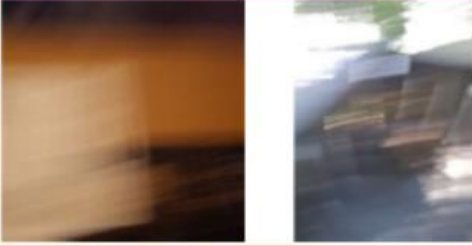

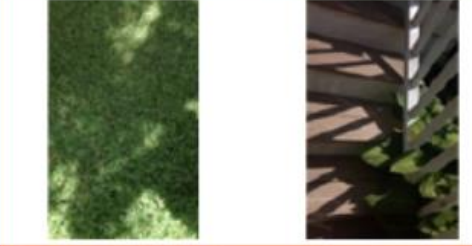

Customers can select “ALL that APPLY”!

# Photo On Delivery – What is a High Quality Picture?

## POD Sample Photos

### Examples of Photos by Defect Category:

Defect Type	Sample Photos	Defect Type	Sample Photos
Blurry Photo		Package Too Close	
No Package Detected		Human In The Picture	
Package Not Clearly Visible - Locker/Other Concealment		Package In Car	
Package In Hand		Photo Too Dark	

### DOs:

1. Step back to capture the location surroundings of the package
2. Review the photo, and retake any poor quality pictures
3. Use the flashlight icon on your device to help capture photos when its dark outside

### DON'Ts:

1. Each example to the left!

# 6-Step Delivery Method (No Missing/SW DNR)

1 One Working bag

2 Organize & Identify Packages (DA assist Code)

3 Isolate Packages at Stop

4 Scan Packages

5 Count & Take Packages

Why...?  
Deliver the Correct Packages to the Correct Customers!

6

At Address

On Package

On FlexApp

All Match?

Swipe to finish ONLY if....

# Why can't I scan my package?

## Observation?

1. Already marked Delivered

2. In an Error State

3. You Marked Missing

4. Cancelled (LEAST LIKELY)

## Resolution 😊

1. Go physically delivery it!

2. Call to have it assigned to you!

3. Troubleshoot it, and reattempt!

4. RTS!

You can solve MOST issues on road, do not immediately assume RTS

# Rescue Protocol – for Rescue/r (PNOV)

Scan Packages?

Only take responsibility for what you scan!

Yes!

Why?

Scan Container?

Why?

No!

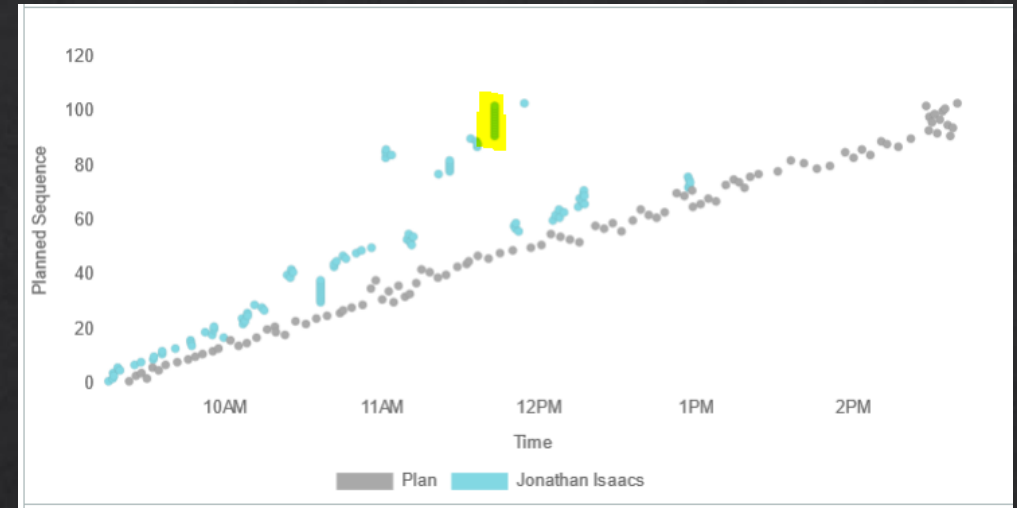

Creates missing packages if container is altered!!

# Daily Monitoring (Cortex)

During on road delivery hours, DSP leadership to cross reference DA's with high DNR's from previous weeks in metrics file vs live performance in Cortex

Purpose to Identify certain behaviors

- package dumping
- same time stamps
- ”pillars” from delivery graph
- customer notes vs delivery method?

Address	Package Count	Time	Delivery Method
